

ike Software Release – ikeOS v2.6.0

1 Introduction

This document summarizes the new features, bugs fixed, and known issues for version 2.6.0 of the ike standard Operating System (ikeOS) software and ike Software Development Kit (SDK).

The ike software must be used with the ike304, ike105, ike205 or ike305 product, and is not compatible with previous models of ike (ike300).

2 Key differences since ike software v2.5.0

This ike software version was developed based on the ike software version 2.5.0.

The following items describe the key differences for this release of the ikeOS & SDK.

2.1 ike software items

- Updated ikeOS to support ArcPad 7.1.1.
Note that ArcPad versions 6.0.3 and 7.0.1 are no longer supported in ikeOS 2.6.0. If you wish to continue using these previous versions of ArcPad, please install ikeOS 2.5.0
- Included an evaluation version of ArcPad 7.1.1 in the ikeOS installer.
- No other changes since release of ikeOS v2.5.0

2.2 SDK specific items

- There are no changes to the that are only applicable to the SDK
- SKD v2.5.0 will function with ikeOS v2.6.0

3 System Requirements

- This version of the ike software has been tested on Windows Mobile 5 version 1.00.01.H ENG with Service Pack SP33752 applied and Windows Mobile 5 version 1.02.00.H ENG with Service Pack SP33003 applied.
- It is recommended that the appropriate HP iPAQ ROM Update Service Pack relevant to the HP iPAQ model installed in the ike should be applied before installing ike OS. The iPAQ Model ID of the ike can be checked from the System tab of the HP Asset Viewer system applet.
 - o SP33752 applicable to the HP iPAQ hx2790 is available from [SP33752-hx2790.zip](#).
 - o SP33003 applicable to the HP iPAQ hx2790b is available from [SP33003-hx2790b.zip](#).

4 Usage

- Customers who are using ArcPad 7.1 on their desktop PCs should upgrade their ike to ikeOS v2.6.0
- Customers who wish to remain using ArcPad 6.0.3 or 7.0.1 on their desktop PCs should install ikeOS v2.5.0 on their ikes

5 Additional Information

Please contact your ike reseller or Surveylab (via support@ikeGPS.com) for additional information about ikeOS v2.6.0.
